Consero's Unique Outsourced Finance & Accounting Solutions Drive Growth

AUSTIN, Texas, Aug. 30 - Consero, a leading provider of outsourced corporate finance solutions for small & mid-market companies, announced today that it placed #321 on the 2010 Inc. 500 list of the 500 fastest growing companies in America. The ranking, based on Consero's 922% revenue growth over the preceding three years, was achieved through the growing adoption of the companies unique finance service delivery platform of people, processes and integrated technology applications which helps Consero clients receive superior scalability and financial reporting at a reduced cost.

"Until recently it was extremely difficult for small, high-growth companies to achieve an efficient, high-value finance function without expending a tremendous amount of executive time and effort on tactical staff, process and technology application headaches along the way," said Scott Tynes, CEO of Consero. "Consero's ranking on the Inc. 500 is a testament to both our ability to deliver superior, scalable finance solutions to our clients at a lower cost, as well as to the growing acceptance of outsourced finance and accounting providers as a viable alternative to the cost and headaches of developing and maintaining an in-house finance function."

The Inc. 500 list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs. "Fast growth at any time is a big achievement; fast growth during the past few years is just short of miraculous," said Inc. editor Jane Berentson. "The Inc. 500 consists of these just-short-of miraculous companies, the ones that through ingenuity and ambition have increased revenue, hired employees, and grown fast in difficult economic times."
