Consero Named One of Austin's Fastest Growing Companies

Consero's Unique Outsourced Finance Solutions Drive Growth

AUSTIN, Texas, Nov. 22, 2010 - Consero, a leading provider of outsourced finance and administration (F&A) services for small & mid-market companies, announced today that it was named one of the Austin Business Journal's Fast 50, a ranking of Austin's fastest growing companies by the Austin Business Journal. The ranking, based on Consero's revenue growth over the preceding three years, was achieved through the growing adoption of the company's innovative F&A service delivery combination of people, processes and scalable technology applications.

"It is an honor to be included in the ABJ's Fast 50 and see that the hard work we have put into providing a superior, more scalable finance solution to our clients has yielded such positive results", said Bill Klein, President of Consero. "We look forward to building on this milestone through a continued focus on addressing the unique financial needs of the small and mid-market companies we've so enjoyed working with".

Consero's innovative F&A service delivery model allows it to provide its clients with far more than a basic bookkeeping solution. Through a unique combination of on-site & offsite staff, proven processes & controls and integrated software applications, Consero helps its clients achieve greater scalability at a lower cost point while achieving superior financial reporting and simpler adherence to complex financial compliance guidelines and regulations.

The ABJ Fast 50 is the latest in a string of awards recognizing Consero for outstanding service delivery & client satisfaction and for its high rate of growth in the mid-market F&A outsourcing space.

About Consero

Consero was founded with the goal of providing superior finance and administration (F&A) solutions to small and growing companies at a reduced cost and has grown to be recognized as the #1 provider in the industry by independent publications like the Black Book of Outsourcing. Consero's unique service delivery platform helps growing companies to address complex finance requirements, scale finance operations quickly and cost-effectively, and deliver superior reporting to better support strategic executive decision making. Each Consero client leverages a customized combination of highly qualified people, proven technology and optimized processes

resulting in a flexible yet tightly integrated solution designed to support high-performance financial operations while significantly reducing costs.
