Consero Named #3 Worldwide Vendor for Mid-Market Finance and Accounting Outsourcing

Brown & Wilson Group Recognizes Consero as a Leader in Finance and Accounting Outsourcing

AUSTIN, Texas, October 15, 2007 -- Consero Global Solutions, the experts in finance and accounting outsourcing services, announced today that they were named the #3 worldwide, mid-market vendor for Finance and Accounting Outsourcing (FAO) by the Brown & Wilson Group, a strategic outsourcing consultancy and authors of *The Black Book of Outsourcing*.

Recognized by industry experts as a leading publication in outsourcing services, *The Black Book of Outsourcing* initiative sponsors the only annual, independent ranking of 4,500 vendors based on ballots from over 20,000 outsourcing users and clients. Spanning 40 industries and companies of every size, vendor sub-list rankings are based on eighteen criteria of operational excellence and client engagement satisfaction.

"Consero leapt into our Top 10, mid-market FAO rankings this year with consistently high scores across all of the categories on which vendors are ranked", said Doug Brown, principal at Brown & Wilson and co-author of *The Black Book of Outsourcing*. "They have very quickly become a player to be reckoned with in the mid-market FAO space."

"We are extremely excited to have again been recognized as a leader in the fast-growing finance and accounting outsourcing market," said Scott Tynes, CEO of Consero. "While quickly becoming a premier service provider to small- to mid-sized companies, we've put a tremendous amount of focus on driving value for our clients. We are proud to see Consero's commitment to service excellence recognized by our clients in these rankings."

The complete 2007 Top 10 Midmarket FAO vendor rankings can be found at:
