**Consero Global Solutions Named #1 Worldwide Provider of Mid-Market Finance and Accounting by *Black Book of Outsourcing***

*Delivers the Financial Sophistication and Efficiency of the Fortune 1000 to Companies of All Sizes*

**AUSTIN, Texas – September 18, 2008** – Consero Global Solutions, a recognized leader in finance and accounting (F&A) outsourcing services, announced today that it has been named No. 1 worldwide on the Brown-Wilson Group's 2008 *Black Book of Outsourcing* list of mid-market Financial and Accounting Outsourcing (FAO) vendors. In its second consecutive year as a *Black Book of Outsourcing* top vendor, Consero is recognized for its excellence in operations and client satisfaction.

"Consero has quickly emerged as a leading outsourcing vendor," said Doug Brown, principal at the Brown-Wilson Group. "Appearing for the second year in a row as a top outsourcer for finance and accounting is a tribute to Consero's focus on client success. We look forward to seeing Consero's continued growth and presence in the important F&A outsourcing space."

Now in its fifth year, the *Black Book of Outsourcing* publishes the only annual, independent ranking of 4,638 outsourcing vendors based, in 2008, on customer ratings from more than 24,000 outsourcing users. Responses are collected for 26 key performance indicators related to customer satisfaction with the vendor experience.

"Consero has exceeded my expectations on a number of fronts," said Brandon Hartsell, CEO for Sunstone Yoga. "The outsourced accounting and finance resources they provide are highly efficient, cost effective, and dedicated to delivering superior service results. As my business continues to expand, Consero will remain integral in driving down my overall cost structure and providing me the financial information I need to make essential business decisions."

"Leading companies rely on Consero's industry expertise to help achieve their business goals at a reduced cost," said Scott Tynes, CEO of Consero Global Solutions. "Through our offshore finance and accounting services, we provide the highest quality service levels at costs that are 50-60% lower than locally-available resources – something that has proven critical for companies weathering the current economic downturn. We are honored to be recognized once again for our team's continued commitment to providing an unparalleled service."
