Consero Global Solutions Appoints David Zahn as Chief Operating Officer

Triple-Digit Growth Drives Expansion of Consero Management Team

AUSTIN, Texas, September 10, 2007 -- Consero Global Solutions (Consero), the experts in finance and accounting (F&A) off-shoring services, today announced it has appointed David Zahn as Chief Operating Officer. A 17-year veteran of finance and accounting outsourcing services and enterprise software marketing, David will focus on scaling operations to meet Consero's growing business as well as provide support on the sales and marketing front.

"David's experience in fast-growing, dynamic industries will prove invaluable to Consero as we continue to build on our success in the offshore staffing and outsourcing industry," said Scott Tynes, CEO. "His background in finance and accounting outsourcing services will allow us to further streamline our customer's transitions to offshore resources, saving them even more time and money"

David's 17-year career in outsourcing services and technology marketing spans multiple industries including Banking, IT, Retail, Oil & Gas, and Telecommunications. David began his career at Electronic Data Systems (EDS), a leading outsourcing of IT services, where he led financial and accounting software implementations at industry-leading accounts such as Hitachi Data Systems and Southland Corporation. After EDS, David held Director-level technology and marketing positions with garden.com, BroadJump, Motive, and United Devices. Most recently at BroadJump, David marketed services into telecommunications companies, and, at Motive, he led the product team responsible for revenue growing to over \$100 million for 2004 and 2005. David holds an MBA from The University of Texas and an undergraduate degree from Rice University.

"The gap between supply and demand for finance and accounting talent is at an all time high," David says. "Even if U.S. companies do find the right local resources, they come at a premium, and attrition rates are high as employees leave for new opportunities. Consero Global Solutions has proven their staff can provide superior finance and accounting service levels at a fraction of the normal cost while relieving customers from the headaches associated with recruiting and retention of in-house F&A personnel."

About Consero Global Solutions

Consero Global Solutions provides dedicated off-shore staff to U.S.-based companies in search of financial planning and analysis, accounting, and business operations expertise. Utilizing Consero's offshore employees, customers gain the optimal combination of experience, quality, cost, and flexibility. With two engagement models – augmenting existing customer teams or taking ownership of entire finance and accounting functions – Consero delivers a full range of finance, accounting, and operations services including financial modeling, budgeting, forecasting, variance analysis, general ledger accounting, fixed asset management, and more.
